

## WINE MENU

*To complement Essensia's concept of crafting a dining experience for the mind, body, and soul, we invite you to experience Essensia's exclusive wine list which is committed to being completely 100% sustainable, organic or biodynamic and has been selected for sharing our mission to be good for you and for the environment.*

*Our wines are classified into three groups:*

### **SUSTAINABLY FARMED OR SUSTAINABLE VITICULTURE**

*These wines are produced without causing severe or irreversible damage to the ecosystem, including the impact on the earth's soil and those who produce the wine.*

### **ORGANIC, ORGANICALLY GROWN OF FARMED**

*To bear this claim, wine must be made from at least 95% organic ingredients, have an ingredient on the label that is identified as organic and give information for the agency certifying it as well as contain no sulfites.*

### **BIODYNAMIC**

*Similar to organic farming, biodynamic farming emphasizes the use of organic fertilizers and composts and excludes the use of artificial chemicals on soil and plants. Methods unique to this approach include the use of fermented herbal and mineral preparations as compost additives and field sprays and the use of an astronomical sowing and planting calendar.*

# WINE BY THE GLASS
